

#### **AMENDMENT(S) TO THE SPECIFICATION**

**Please replace the paragraph beginning at page 9, line 26, with the following rewritten paragraph:**

Fig. 5 shows an enlarged illustration of the preferred variant of the design of holding pipe 7, coolant pipe section 6 in accordance with the invention and also the way in which the connecting piece 8 is secured to the cooling plate 1 by means of screw connection 9. The holding pipe 7 and pipe section 6 are sized to provide a clearance between them.
